STATE GOVERNMENTS

INTRODUCTION

This directory lists the principal officers of state education agencies having responsibilities for elementary and secondary education and vocational-technical education in the 50 states and 6 outlying territories. Information included in this publication was provided by the respective agencies during the spring of 1971 and does not, of course, reflect personnel changes in the agencies since that time.

This issue of the directory of state education agency personnel was produced by the Wisconsin Department of Public Instruction under the auspices of the Interstate Project for State Planning and Program Consolidation, financed by funds provided under the Elementary and Secondary Education Act of 1965 (Public Law 89-10, Title V, Sec. 505, as amended).

Appreciation is extended to the many contributors to this publication and to the secretarial and technical staff of the Wisconsin Department of Public Instruction.
